Heaven intended thould be granted to every woman.
Thousands fail of this because they have reglected to look after their bealth in a comanty way. The health of a woman's babies is dependent upon the own health during the period of prospective maternity. The prospective mother cannot be too particular about her physical condition. If she suffers from local weakness, nervousness or loss of vigor and virility, her children will be weak, puny and sickly. Dr. Pierce's Favorite Prescription is the only unfailing cure for all weakness and disease of the delicate and important organs that bear the brunt of maternity. It makes these bear the brunt of maternity. It makes these organs strong, healthy, vigorous, virile and elastic. It makes the prospective mother strong and cheerful. It robs maternity of its perils. It insures a baby constitution ally strong. It is the invention of an eminent and skillful specialist, who has had thirty years' training in this particular branch, do ing which time he and his staff of physic' (a) have prescribed for many thousand—if women. That burglars of the more advanced type can and do use chloroform in the commission of their crimes is a belief | widely held and rarely contradicted, and yet there is, eurlously, little foundelien for it. Sometimes she puzzles over it herself, but in the majority of cases she gives the matter no thought, but simply rises, grasps the railing, and, whether the car is at a standstill or in motion, steps off backward. The Flank March. "Stonewall died," ran one of the most popular fables, "and two angels came down from heaven to take him back with them. They went to his tent. He was not there. They went to the hospital. He was not there. They went to the outposts. He was not there. They went to the prayer meeting. He was not there. So they had to return without him, but when they reported that he had disappeared they found that he had made a flank march and reached heaven before teem."-"Stonewall Jackson." by Lieutenant Colonel G. Perhaps as costly a commodity a any that is carried in considerab! quantities in truckloads is Sumafra to bacco, such as is used for eigar wrap pers. Sumatra wrappers cost from \$1 to \$2 a pound, and the import duty on them is \$1.85 a pound. This tobacco is imported in small, compact bales weighing 170 or 180 pounds each. There is one thing that is earlieb at a D-morrat that is time: He is not a fluanster. He could not set up a truet while he remains a Democrat, if his life depended on making a success of the work. years ago the writer has a very distinct remembrance that a Democrat wis conen from W-shoe City as a d : egate to a State convention at Eiki who was in effect instructed to vote for Major Bradley (afterwards Governo) as a candidate for Governor. The delegate had in his possession five proxisa and his own vote. He came to Reno, on his way to Elko, where there p off able and track is being put in. A Silent Rebuke.

A curly haired small boy sat in a Fourteenth street car just at the time of the day when the cars are most erowded on Thursday afternoon. A worn looking woman, evidently his mother, sat beside him. At Fifteenth street a particularly buxom woman of middle age crowded into the car. There was no seat for her, and she stood glaring at the boy. Later her displeasure vented itself in words, and she expressed herself freely to the woman who stood next her about women who let their children occupy seats while ladies are standing. The worn looking wom-an flushed, but made no move to have the boy surrender his seat. The buxom woman still glared and still expressed herself with extreme frankness. The boy sat still. At N street the mother rang the bell. As the car stopped she put her arms around the boy and lifted lum to his feet, half carrying him to the door.

"Won't you take this scat?" she said to the buxom woman. "I am fust tak ing him home from the hospital."

And as the car rolled on the buxon woman looked warmer than the weather warranted.-Washington Post.

"A Yenuine Yentleman" is the title of Ben Hendricks' new play which has achieved emphatic auccess and which is to be given upon a very complete and elaborate scale, by arrangement with Jacob Litt, at McKissick's Opera House, Tuesday, Sept. 26th. Mr. Hendricks is a clever comedian of original methods and exceptional ability. Of the many characters introduced on the stage within the past generation none has been received with greater favor or gives promise of more enduring life than the Americanized Swede as portrayed with such nice discrimination and consistency by Mr. Hendricks in Yentleman" he gives us an entirely naw conception of the droll, phiesmatic Swade of impassive countenance and methodical manners.
